CAGWIN CATTLE SERVICES

Walter Larson

R. D. Magill

It is indeed a pleasure to dedicate this first "Top Ten" sale to two outstanding pioneers of the Shorthorn business in North Dakota, Walter Larson and R. D. Magill.

Walter Larson has been a faithful and devout servant of the breed for many years, serving 25 years as our secretary. We who are lining up this sale, among others, realize all of the work and dedication he has given the breed over the years. Walt has long been active in church and community affairs as well as raising a large family. The Hi-Way Farm name has appeared in pedigrees for many years and in recent years has been sought eagerly as the Larson prefix has come to mean size and dependability.

R.D. Magillof course is the fountainhead of the Magill Farms at Verona. Long an active member in state and community activities, he is a charter member and Past President of the NDFB. Still a thriving bachelor at the young age of 82, he assisted in raising and educating five nephews, three of whom are actively engaged in the shorthorn business. It would be difficult to surpass the show and sale results the Magill herd has enjoyed in the state over the years.

Both Walt and R. D. were honored as Builders of the Breed, and both men's portraits are hanging in the North Dakota Agriculture Hall of Fame. Space limits mentioning more of their achievements as they are many. It is a great honor to be able to dedicate this sale to two such outstanding leaders in the Shorthorn business.

A WORD FROM THE SALE COMMITTEE . . .

Perhaps at no other time in history as the cattle business been as exciting and fast moving. Opportunities in abundance are available for the cattlemen to improve and progress in this fast moving business. Such an opportunity is the "TOP TEN" sale.

It is indeed a pleasure to welcome you to the "Top Ten" sale in bright sunny North Dakota. Every effort has been made to assemble the highest quality group of breeding cattle to be presented in 1973. Many miles were traveled and the phone company increased its profits substantially while we were assembling the cattle, but we feel the effort was well worth while.

If you'll study the cattle and the breeding behind them, you'll find an offering second to none. As past reference, think back to many of the good big useful cattle that have been moving the breed forward the past few years, many of them had their origin right here in the Dakotas. . . this is the type of cattle we've assembled for the "Top Ten" sale. Nowhere in North America will you find a greater concentration of top sires and service sires than you'll find on June 7.

We sincerely hope you can be with us on sale day, but if it's impossible to do so, please feel free to contact any of the sale personnel to answer any questions you might have. Plan on visiting as many of the con-signor's herds as you can. . . there are quite a number of them within an hour or two of Devils Lake. So bring the family, a fishing pole or two, and plan to enjoy yourself the prairies and have a chance to purchase a tremendous set of sale cattle.

Sincerely,

Wayne CLAR

Bob Miller

DON CAGWIN Purebred Herd Management and Cattle Listing Service

632 South Main Street + Virginia, Illinois 62691

Dear Shorthorn and Polled Shorthorn Breeder:

Rarely have I had an opportunity to work with such dedicated breeders as I have in the Top Ten Sale. This is the only Shorthorn and Polled Shorthorn consignment sale I know of where all the cattle have been hand selected from the Top Ten Percent of their respective herds!

Anyone who has travelled through Minnesota, North Dakota, South Dakota and Montana looking at Shorthorn and Polled Shorthorn cattle, knows that these four states comprise some of the best cattle in the Industry. And when you select from the Top 10%, this makes up one of the best consignments of cattle ever offered.

Those of you who are coming from a great distance will find the Top Ten cattle will be as they are represented and that the consignors will be a very willing group to work with regarding transportation.

Looking forward to seeing you in Devils Lake on June 7th,

Cordially,

Don Cagwin,
Sale Manager

GENERAL INFORMATION

TERMS AND CONDITIONS—Terms of the sale are cash, payable to the clerk immediately following the sale. All cattle sell under the standard guarantee recommended by the American Shorthorn Association.

INSURANCE—will be available sale day at the clerk's desk. Insurance will be handled by Harding & Harding, Geneva Illinois.

ANNOUNCEMENTS—Announcements from the block take precedence over printed material in this catalog.

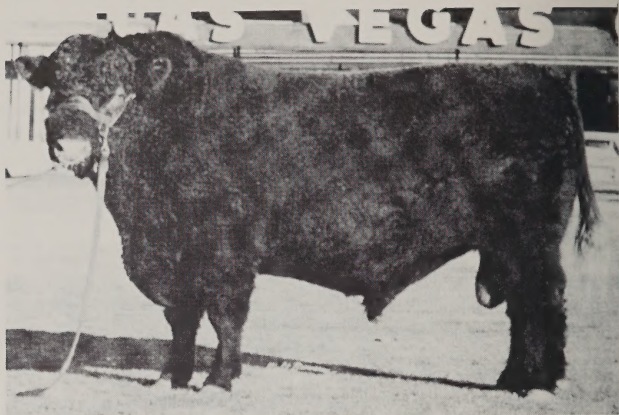

HEALTH—Health certificates will be provided with each lot sold.

LIABILITY—All persons who attend the sale do so at their own risk. The owners, sale manager, ringmen or clerks assume no responsibility, legal or otherwise, for any accidents which may occur.

REGISTRATION AND TRANSFERS—All animals sell with completed pedigree in the hands of the sale management or the American Shorthorn Association for immediate transfer to the new owner.

MAIL BIDS —We hope it will be possible for you to attend. If you cannot, mail or telephone your bids to the Sale Manager, the Auctioneer, or any of the representatives listed on page 1.

MILLVALE DAKOTA DURHAM 12th x - is an outstanding son of Kinnaber Leader 6th x whose dam is one of our top six cows. She is a tremendously large feminine broody eleven-year old who is a 100 per cent dehorning cow. This calf has the most potential of any of our 1972 bill calves. His adjusted 205 day weight was 565 and his weaning index was 105.

NELCO NAPOLEON x - one of our better Kenmar Leader Roan bulls. He is long, tall and trim and he will continue to grow. His dam by Weston E Reliance is an outstanding producing cow.

WHY BUY SHORTHORNS?

- ★ Shorthorn bulls are active, sure breeders.
- ★ They put more growth into their calf crops.
- ★ Shorthorns are historically known for their faster gaining and finishing ability. The demand for Shorthorn and Shorthorn cross-bred feeders far exceeds existing supplies. Consequently, they sell for a premium.
- ★ Shorthorn bulls put more milking ability into their daughters . . . this means heavier weaning weights.
- ★ Shorthorn docility is world famous, making them ideal projects for youngsters.
- ★ Shorthorns eliminate the cancer eye, sunburned and snowburned udder problems.
- ★ Shorthorns are known as "THE GREAT IMPROVERS," Shorthorn crosses have been proven in test after test to be superior to other crossbreds in milking ability, rate of gain and feed efficiency.
- ★ Ask yourself why so many commercial herds are now cross-breeding with Shorthorns? IT'S BECAUSE THEY ARE BEST IN EVERY WEIGH.

SHADYBROOK AUGUSTA 68th x - This cow was Champion at the Sioux Falls Fair, Minnesota State Fair and Reserve Grand Champion at the American Royal. She sells with a tremendous Shadybrook Viking heifer calf at side.

A GROWTH STOCK

Shorthorn and Polled Shorthorn cows are a growth stock: In financing parlence this means a sound investment that is assured of increasing in value.

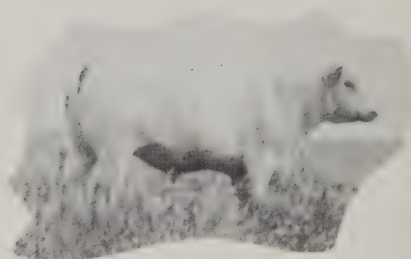

The future of all beef cattle looks bright. The growing population in America and a growing per capita beef consumption makes investment in cow-calf programs mighty attractive.

The Shorthorn-Polled Shorthorn future looks especially bright. That is because the breed has more to offer the beef world than any other breed.

There are breeds more highly glamourized . . . there are breeds with more inflated values but no breed is more universally recognized for its improvement ability than the Red, White and Roan. Nearly every large, exotic breed in the world owes much of its parentage to Shorthorns. If you really think about that fact alone, you should have a greater appreciation for Shorthorns.

No breed has more genetic purity than Shorthorns. The breed has no problem with dwarfism, cancer eye, prolapses, sunburned udders. No beef breed is so enriched with milking ability, with docility, with gaining ability.

We could go on and on about Shorthorn superiority and their higher profit potential. If you own Shorthorns, you know their dependable productive ability. If you don't own Shorthorns, it is high time you did. The females offered in this sale can do much to cement your faith in our breed.

W C LAVENDER A 1 x - Lavender weighed 1150 as a 3-year-old on November 8, 1972, weaning her second calf. Her two previous calves had weaning weights averaging 586 pounds. She has a polled bull calf at side by Melbros Clipper King. She has been vaccinated.

THE WAY TO BETTER BEEF

A recent study of 307 steers and heifers, exhibited at the Nebraska State Fair and slaughtered, indicated an overwhelming grade advantage for Shorthorns. Look at the figures:

Breed	Percent that graded low choice or better
Shorthorn	95 percent
Angus	82 percent
Crossbreds	63 percent
Herefords	48 percent

The surest way of assuring that your cattle will produce choice carcasses is through the use of Shorthorn and Polled Shorthorn bulls.

MILLVALE LADY LOUISE x - This two-year-old has a March 17th bull calf at side by Pleasant Dawn Seal 2nd x that is really a good one. Her sire weighed 2100 pounds at 37 months and is in the opinion of several people one of the best sons of Leader 21st x. Her adjusted weaning weight was 460 pounds, grade 14, index 91, total index 92. Adjusted yearling weight 783 pounds, grade 14, weight index 107, total index 118.

GREAT IMPROVERS

Shorthorns are the "Great Improver." According to the publication "European Breeds of Cattle," over 30 recognized breeds owe their parentage to Shorthorns. Included are Charolais, Maine-Anjou, Santa Gertrudis, Beefmaster, and Angus. If you are interested in A1 heifer programs, go with the breed that has been the most successful crossing breed for nearly 300 years. Shorthorns "quality mark" their progeny while other breeds merely "color mark" theirs.

KENMAR MYRTLE 15D x - -This is a Fulton bred female that we truly hate to part with but are selling her only to make this a successful sale. By a son of Lader 9th x, she will make a great cow.

BUM STEER

There is no such thing as a bum steer! And we really mean that. The dependable SHORTHORN INFLUENCE makes it so . . . profitably erasing a host of unappreciable characteristics from the very first generation, then succeeding to work monetary miracles on each thereafter. RUGGED, BEEFY, PERSISTENT SHORTHORN AND POLLED SHORTHORN BULLS . . . on ordinary or best range cows, no matter their breed . . . assure high-percentage calf crops. As reds, whites, roans, you will find the SHORTHORN INFLUENCE means more "folding money" at market time. At weaning they are heavier . . . finished cattle get there faster. Don't you be swayed by hearsay . . . ask for facts about SHORTHORNS before nodding "Yes" to your cattle needs.

Red, Roy J. Horn

H A LASSIE x - This young heifer has the makings of a tremendous cow. She is modern in every way. She comes from a great producing cow that milks extremely well. We are reluctant to part with her, but do so to show what our polled herd is producing.

CONSIGNORS:
